# Mastering Clinical Photography

**THURSDAY LECTURE**  
**2.5 CEU MAY 17, 2012**

**SATURDAY HANDS-ON**  
**7.0 CEU MAY 19, 2012**

## Course Description

Dr. Jin Kim has been taking clinical macro photography in dentistry since 1991. An avid photographer since high school, he became the "go to" guy amongst residents, and faculty at

UCLA during his residency. He went on to teach photography to his fellow residents, and later as a format teaching program at UCLA periodontics program. Taking more than 3-400 clinical photographs on a daily basis, he has conducted several hands-on training programs at various national meetings.

- selecting equipments and gadgets in digital macro photography (SLR & compact cameras, lenses, flash, retractors, mirrors), archiving, and presenting (Powerpoint, Keynote)
- master techniques in taking clinical series for cosmetics as well as surgical, operative and for documentation purposes
- participants are encouraged to bring a laptop (mac or pc) , and any photography equipment they may own, as well as auxiliary team members so that benefits of photography can be implemented with the team immediately!

**To Register...**  
 Call 909-860-9222  
 Lecture \$165 - Hands-on \$475  
 \$590 for both (\$50 savings)  
**Embassy Suites**  
**Brea, CA**  
**900 East Birch Street**
